### Work Experience

**Akbank T.A.Ş. — July 2021 - Now**

**Application Architect**

I've been working at Akbank as an Application Architect. I developed Frontend Framework and Boilerplate for Akbank ATM Project and Akbank Internet Banking Redesign for Web with my teammates using React.js, React-Redux, Axios, Node.js, Babel, Webpack, (Npm, yarn, verdaccio, nexus) and Git. And then, we developed Mobile Framework for existing mobile application using React-Native. Also, I've been working as a Build Admin for CI/CD using TFS and create virtual services for working offline using CA Tools.

**Maarifa UX & Consultancy — July 2016 - July 2021**

**Senior Frontend Developer**

I've been working at Akbank as a Frontend Developer since I started working in this company. I developed Frontend Framework and Boilerplate for Akbank ATM Project and Akbank Internet Banking Redesign for Web with my teammates using React.js, React-Redux, Axios, Node.js, Babel, Webpack, (Npm, yarn, verdaccio, nexus) and Git. And then, we developed Mobile Framework for existing mobile application using React-Native. Also, I've been working as a Build Admin for CI/CD using TFS and create virtual services for working offline using CA Tools.
